

REVO REVO single phase electric power series

Product introduction

REVO series is independently developed by Vision Group, suitable for all kinds of small power UPS. It has the characteristics of safe and reliable, long service life, small footprint, simple installation and etc. Accompanied by the high-rate LFP cell which is designed by Vision.

Features

- The second or third-level management structure supports external parallel connection and later expansion.
- It supports CANBUS or MODBUS communication.
- The second or third-level management structure supports external parallel connection and later expansion.
- It supports CANBUS or MODBUS communication.
- High precision control 3mV voltage accuracy: 1°C temperature control.
- High discharge efficiency: more than 90%.
- Long service life: design life of 15 years.
- Long cycle life: 3C discharge and 1C charge, not less than 1500 times.

Product application

Data Center

Financial Institution

Rail Infrastructure

Energy Storage

Backup Power In areas Without Mains Supply

Type	Capacity	Module type	Module type	Size (mm)			Weight (kg)	Nominal energy (kwh)
				Length	Width	Height		
SP12V-6	12.8V6AH	1.5AH	4S4P	151	65	100	0.95	0.5
